- a) proudly      b) happily      c) successfully      d) safely

4) The trees food is .....

- a) soil                      b)sunshine                      c)honey                      d)shade**

# Grade 4

# Exercise

Read the following passage and answer the questions below:

Sara and her brother Ahmad went camping with their Mom and Dad. Ahmad and dad set up the tent while Sara and Mom collected sticks to start a bon fire. Once the tent was set up, they started a fire in the bon fire pit. Sara and Ahmad looked for a long pointy sticks to use for cooking hotdogs over the fire. They found four perfect sticks, one for each of them.

Sara and Ahmad and their Mom and Dad, each placed two hotdogs on their sticks. They held the hotdogs over the fire and turned the sticks slowly so every side of the hotdog was cooked. It was delicious! Eating hotdogs is Sara's favorite part of the camping trip.

a)Choose the correct answer from a,b,c and d : (4x1=4Marks):

1- The best title for the passage is :

- |                    |                  |
|--------------------|------------------|
| a)The camping trip | c)Eating hotdogs |
| b)The sticks       | d)the tent       |

2- The underlined word they refers to :

- |                  |                 |
|------------------|-----------------|
| a) Ahmad and Dad | c)Tent and fire |
| b) Sara and mom  | d)Hotdogs       |

3- The opposite of the underlined word over is :

- |           |          |
|-----------|----------|
| a)next to | c)behind |
| b)under   | d)near   |

4- Sara's family went .....

- |           |           |
|-----------|-----------|
| a)sticks  | c)camping |
| b)hotdogs | d)tent    |

b)Answer the following questions (2x1=2 Marks):

1- Where did the family go?

.....

2-What did they eat?

.....

Read the following passage and answer the questions below:

The Moon goes around the Earth. This is called an orbit. The same side of the Moon always faces the Earth. It takes one month for the Moon to go around the Earth. The Moon is a little more than 200,000 miles from the Earth. It is about quarter the size of the Earth. That means the Earth is four times larger than the Moon. The Moon is a dry land that has millions of craters with rocks and dust.

The surface of the Moon is covered with about two inches of dust. The Moon has no air or atmosphere around it, so it does not stay as comfortable and warm like the Earth. The temperature on the Moon is -170o F at night which is very cold, but it is 265o F during the day which is very hot. The hottest temperature on Earth is about 130o F, so the Moon can get over twice as hot!

a) Choose the correct answer from a, b, c and d : (4x1=4Marks):

1- The best title for the passage is :

- |                       |              |
|-----------------------|--------------|
| a) The moon           | c) The earth |
| b) Moon's temperature | d) The air   |

2- The underlined word it refers to :

- |              |              |
|--------------|--------------|
| a) The moon  | c) The Earth |
| b) The orbit | d) The miles |

3- The opposite of the underlined word cold is :

- |         |          |
|---------|----------|
| a) fast | c) hot   |
| b) slow | d) large |

4- The surface of the Moon is covered with about two inches of:

- |          |          |
|----------|----------|
| a) water | c) dust  |
| b) grass | d) trees |

b) Answer the following questions (2x1=2 Marks):

1- How long does the moon takes to go around the earth?

.....

2- Is the moon larger than the earth?

.....
